01 / IDENTITY

The site, as evidenced

A parcel level reading of available source evidence, with unresolved decisions kept visible.

SYNTHETIC FIXTURE PARCEL

SOURCE PASS

DESIGN NOT_REQUIRED_NOT_PROVIDED

Project

SYNTHETIC_FIXTURE

Exact project binding

Parcel PNU

1154510300108280004

EUM visible area

1,200.0 m²

Web view; not a legal certificate

Geometry area

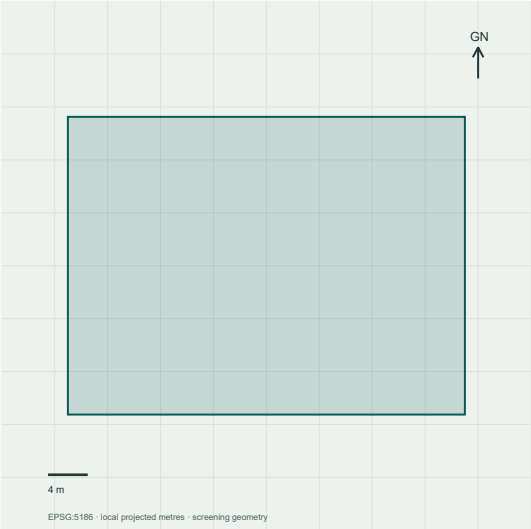

1,200.0 m²

VWorld cadastral screening polygon

Available report sections: 3 of 7. Missing source sections remain explicit on their pages.

02 / GEOMETRY

Boundary and measured area

Projected CRS
EPSG:5186

EUM area
1,200.0 m²

Polygon area
1,200.0 m²

Delta / tolerance
0.0 / 6.0 m²
MATCH_WITHIN_SCREENING_TOLERANCE

Map scale and GN (grid north) use the declared projected metre CRS. Toggle source layers in the screen controls. No surrounding streets or transit are inferred.

03 / SOURCE QUALITY

What the sources establish

Evidence	State	Boundary
EUM web view	ONLINE_VIEW_NOT_LEGAL_CERTIFICATE	Online view only; obtain legal record separately
VWorld cadastral polygon	VWORLD_LP_PA_CBND_BUBUN	Screening geometry; not survey authority
Area comparison	MATCH_WITHIN_SCREENING_TOLERANCE	Tolerance is a screening check, not title verification
Parcel collector	DESIGN_PARAMETERS_MISSING	Design parameter HOLD does not invalidate a matched parcel

Input fingerprints and section status are recorded in analysis_manifest.json. The report does not certify parcel title, zoning or statutory compliance.

04 / CONTEXT

Buildings around the parcel

No context_obstacles.json was supplied. Nearby buildings and heights remain unevaluated.

05 / ENVIRONMENT

Solar study, when supplied

No solar study report was supplied. Sun exposure and shadows are unevaluated; this page contains no calculated result.

06 / OPTIONAL DESIGN

Design evidence boundary

No massing_result.json was supplied. Site analysis is available independently of design parameters.

07 / NEXT EVIDENCE

What needs verification

Legal parcel record	Obtain certified source if a legal claim is required
Zoning and statutory controls	Verify current project applicable law and effective date
Survey and boundary	Cross check cadastral screening polygon against measured CAD/survey
Context coverage	Verify building source coverage, date and unknown heights
Solar	Run or review a project bound study before environmental claims

This report is a source projection. It makes no planning approval, legal area or design capacity claim.
